ASPIRE RECESSED TILT TOP OBT, UPDATED HEIGHT RANGE!

The overall height range of the Aspire Tilt Top OBT has been reduced by 70mm (now 20mm lower compared to the other models). This is of particular benefit when used in conjunction with a recline chair which are typically a much lower seated height than a bed. It allows the OBT top to be closer to the users lap which is safer and easier to facilitate dining, reading and other activities.

PRODUCT FEATURES

- Reduced overall height of 710-1070mm
- Lowered height ensures the table can be situated closer to a lift chair
- Thermoformed surface: Impermeable layer continues over and down the vertical edges so its easily wiped clean
